

Together against the coronavirus

Registering for visits

New rules!

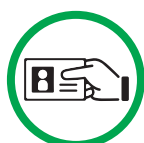

Wear your face mask from the moment you enter the prison until you leave. You may **take it off** during **unsupervised visits** and when **seated** during **table visits** and **guided children's visits**.

Disinfect your hands with the hand sanitizer before registering as well as before entering and leaving the visiting areas.

Wait until the prison staff signals that it is your turn.

Sign in at the reception:
- already visited before? Show your identity card.
- new visitor? Place your identity card in the card reader.

Sign a declaration of honour that you:
- have not been ill in the past 14 days. Your temperature may be measured.
- have not returned from a foreign red area in the past 14 days.
- will inform the prison if you fall ill within the 2 days after your prison visit.

Clothing or objects with you? Inform the reception.

Physical contact with the inmate is **allowed**.
Always keep your distance from other people!

Breaking the rules can lead to a visiting ban.

Take care of yourself and others!
